# Why Eyedius Premium

## RELIABLE

Minimize;

- Carelessness caused by multi - tasking,
- Operational blindness caused by continuously performing similar works,
- Oversight, inattentiveness, forgetfulness due to intense / noisy or too quiet environment, human error.

Measure the work performance of your site personnel and security staff, receive visual reports.

Periodical visual reports provide you with an automatic risk assessment score of the environment based on areal number of warnings received.

## EFFICIENT

### NON-STOP DIGITAL PERSONNEL

Instead of your personnel manually monitoring your camera footage one by one, ensure high efficiency as if you have dozens of employees! Minimize security and burglary risks!

### 95% DATA SAVING

Forget about old technology recording all day long. Save warnings generated only within the framework of scenarios you specify through smart recording. Ensure data efficiency and profit up to 95% in reducing unnecessary data.

### NO MORE FALSE ALARMS

Minimize false alarms, which correspond to 94% of all alarms caused by old technology, with our high technology solutions. Don't let false alarms upset you, with Eyedius Premium you receive warnings and notifications only when necessary.

## MODERN AND COMFORTABLE

### ALWAYS WITH YOU

In case of an alarm, be informed with instant notification to your mobile device wherever you are; call the authorized people and take quick action with a single button.

### CARES LIKE YOU

Be at peace with advanced technology protecting a space in your absence as if you were there.

### SPECIAL FOR YOU

Don't let your security be the same with single type alarm systems provided to all. With the scenarios you define specifically for your security needs, receive quickly performance notifications even in varying or intense environments.
